

St. Stephen's St. Agnes School

An Update on the Ethan Williams Memorial

St. Stephen's and St. Agnes School has been honored to be a part of the legacy of Ethan Williams from the Class of 2015. Your donations through the GoFundMe have resulted in the installation of the Ethan Williams Memorial Garden near our tennis courts at the Upper School.

Lovingly designed by family friend Susanne Fyffe and with the guidance of the fundraiser's organizers, this garden hosts native plants and adds whimsy and beauty to our campus.

As the years pass and the plants bloom, its resemblance to a tennis ball will grow. The bench and boulders offer quiet places to sit.

This space will be a wonderful new space for our students and visitors to gather, reflect, and remember Ethan.

Thank you again for your support to make this memorial possible.
